

## **IC Manage Users Speak out in John Cooley's Deepchip-ESNUG User Forum**

February 9, 2009 – Los Gatos, CA – IC Manage Inc. today announced that three user reviews on IC Manage's Global Design Platform Design Management system were published in the Deepchip EDA user forum. The user reviews can be found here:

<http://www.deepchip.com/items/0478-03.html>

<http://www.deepchip.com/items/0479-09.html>

<http://www.deepchip.com/items/0472-05.html>

“IC Manage is pleased to see its users speaking out so strongly on their positive experience with our product,” said Dennis Harmon, Vice President of Business Development for IC Manage. “Their detailed insights enable other design groups to understand the technology and productivity advantages that the IC Manage Global Design Platform offers.”

### **About IC Manage**

IC Manage, Inc. provides next generation design management solutions for IC design, enabling companies to efficiently and reliably manage single and multi-site design efforts. IC Manage's Global Design Platform (GDP) – utilizing the Perforce engine – is the first solution to offer design assembly, derivative management and content delivery in addition to scalable, ultra performance revision control, release and configuration management. IC Manage offers IT infrastructure integration for hot backup, high availability and disaster recovery for true 24x7 enterprise availability. IC Manage is headquartered at Suite 100, 15729 Los Gatos Blvd, Los Gatos, CA 95032. For more information, visit us at [www.icmanage.com](http://www.icmanage.com).
